REPORT

---

There has not been much change in the organization of the schools this year. We have run the schools thirty-five (35) weeks, and leave quite a balance in the treasury. Have received from trustees of the Dearborn Academy fund two hundred and fifty (250) dollars. They also furnish fuel, janitor and use of building free. At the present time none of the schools are overcrowded or very small, the largest having an enrollment of 42 pupils, the smallest 32 pupils. Schools have been well provided for with supplies and in most cases with books. A number of books are needed at the present time, and with the same appropriation as last year all can be provided for.

As a large percentage of the pupils reside in the south part of the town, it requires more money for transportation. When compared with the cost of maintaining another school, we find a balance of more than one hundred and fifty (150) dollars in the district treasury. Three school houses have been painted, a new flag staff put up at the Farm school house at a cost less than the amount appropriated for the same. New steps are needed at several of the school houses and if made of concrete, which would not cost very high, the school buildings could be kept in good repair for a number of years without any special appropriation.

The per cent. of attendance for the past year is .883, the previous year .835. Although higher this year, the per cent. is much too low. We have painstaking teachers and a better attendance of the pupils would add much to our schools.

From the school laws we find that "no child under 16 years of age can receive an employment certificate unless such child shall have completed the course of study prescribed for the elementary schools."

Respectfully submitted,

JAMES SMITH,

For the School Board.
